A collaboration to celebrate design from the house of

vivre PANELS

A Walkthrough of Surfaces

Each layer of the artwork represents individual pieces of the collection. These panels are neither mass-produced nor are intended to be for mass consumption. Indeed, each piece has been envisioned, sketched & then designed by some of India's finest. We hope these make way to your homes and remain a silent (but charming) part of your life.

Installation Guide

Process

- 1** Prep-work whit playwood / MDF is recommended before the construction. Please remove any kind of wall / film on the surface of the base.

- 2** Apply a quality adhesive on the back of the Louvers. apply a small amount of hot melt (glue-gun) on the back of the Louvers.

- 3** Louvers can be installed in both horizontal or vertical direction. screwing on the tongue/ interlocking space for better fixing.

- 4** Circular saw to be used to cut required length.

- 5** For corners, combine the two grooves.

Tools Required

Handing Instructions

- * Recommend to keep in room temperature 24/48 hrs for acclimatization.
- * Gently handle the edge of the product.
- * Make sure the base where the louvers are being installed is smooth and dust free.
- * Euro Pratik special glue is recommended to use.
- * Louvers are intended only for indoor use.
- * Avoid direct sunlight or use installation near hobs/stove.
- * Louvers are water proof but prolonged exposure to moisture can do harm to the product.
- * Cleaning ONLY with a soft damp cloth without any chemicals or cleaning agents.
